

Spectrum Cutting Solutions Pvt Ltd

## Product Data Sheet

# “SP-PA WAX EMULSION”

### Product Description:

“SP-PA WAX EMULSION” is a Homogenous-Aqueous Wax Emulsion, containing fine particles of wax held in suspension by carefully selected emulsifiers. The Wax and Emulsifiers combination are specially formulated to give the characteristics required in the Emulsion.

**Application:** Recommended for use in cement admixtures as curing compound.

### Typical Properties:

1) Color	: Milky White Emulsion
2) Appearance	: Liquid
3) PH as such	: 4-6
4) Specific gravity at 30 Deg	: 0.95-1.0
5) Nature	: cationic
6) Solid content at 105 Deg for 3 hrs	: 40+/-2
7) Ford cup viscosity at 30 Deg in B4 cup	: 10-16sec

### Key performance:

1. Free flowing characteristic gives easy handling. Application can be closely controlled.
2. Goods storage stability

### Storage condition:

Store inside warehouse, Temperature Condition 30°C to 35°C

Avoid water collecting on barrel top,

**Spectrum Cutting Solutions Pvt Ltd**

**Shelf life:**

6 month Form Date of manufacturing.

**Pack size:**

200kgs HDPE Drums

**For Health & safety please refer MSDS**
